10 February 1967

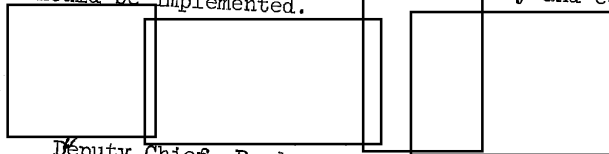

MEMORANDUM FOR: Assistant for Plans & Development
ATTENTION: Chief, Development Branch
SUBJECT: Color Film/Print Dryer
Staff Study Number 10047

1. In mid-December we received the subject staff study for review and comments. We did not concur in the study as written and proposed a re-write to state clearly the following objections.

a. The study is to be directed at investigating advanced drying techniques and methods and provide design parameters for new equipment needed to implement the findings.

b. The justification for the study is not to be based on present production problems nor the anticipated increased workload in the foreseeable future.

2. We have reviewed the re-write of the staff study and concur that the investigation should be implemented.

Deputy Chief, Production Services Division,
NPIC
